★ ★ ☆ ☆ ☆

New 2-star review from Rajesh K. — 4 days ago

"Doctor is good but waited 1.5 hours past my appointment time. Front desk was rude when I asked."

SUGGESTED RESPONSE (CLAUDE-DRAFTED)

"Rajesh, thank you for the honest feedback. You're right that wait times have been longer than we'd like — we're reorganising appointment slots starting next month. I'd like to personally call you to make this right. Please share your number with our office at +91-XXX-XXXXXXX."

★ ★ ★ ☆ ☆

New 3-star review from Pooja S. — 6 days ago

"Treatment was good but it was difficult to reach the clinic on phone. Tried 3 times."

SUGGESTED RESPONSE (CLAUDE-DRAFTED)

"Pooja, I appreciate the feedback. Phone reachability is a known gap we're fixing this month — we've added WhatsApp Business at +91-XXX-XXXXXXX for faster response. Please reach me directly there for your follow-up."

#7 of 20

30/60/90 Growth Roadmap

Customise plan →

Phase 1

Days 1–30

Foundation: complete profile + photos + review system

→ Complete GMB profile (hours, services, description, attributes)

→ Upload 10 high-quality clinic + equipment photos

→ Set up WhatsApp review request workflow with templated message

→ Claim Practo, JustDial, and Lybrate listings with consistent NAP

Target: +8 points · 76 → 84

Phase 2

Days 31–60

Reviews + content authority + AI signal building

→ 15–20 new reviews via WhatsApp request system (target velocity 5/wk)

→ 8 Google Posts on hypertension and cardiac health topics

→ 3 educational Reels: BP basics, when to see a cardiologist, festival eating

→ Respond to every review within 24 hours (improves engagement signal)

Target: +6 points · 84 → 90

Phase 3

Days 61–90

Authority + AI rank improvement + competitive positioning

→ Publish 2 long-form blog posts on Jamshedpur-specific cardiac health

→ Build 5 citations on local medical directories (Sehat, MediBuddy, LocalCircles)

→ Record 3 short patient testimonial videos with explicit consent

→ Engage with 10+ GBP Q&A responses to build authoritative answers

Target: appear top-3 on at least 2 AI platforms · Score 92+
